

# According to WHO:

A group of approximately 15 children of various ages and ethnicities are standing in a grassy field under a clear blue sky. They are all smiling and have their right hands raised in the air, palm facing forward. Some children are making playful faces like sticking out their tongues or squinting. They are dressed in casual summer clothing like t-shirts, shorts, and tank tops in colors such as pink, red, blue, green, and yellow. The background shows a line of trees and a paved path.

1 in every 100 child  
suffers from AUTISM
